

## TCI INFRASTRUCTURE SERVICES – SUCCESS STORY

United States Air Force Air Mobility Command (AMC)

### Customers & Projects

- ☉ Air Mobility Command Applications, Infrastructure, and Systems Support (AISS).
- ☉ Global Air Transportation Execution System (GATES).

TCI maintains each of AISS's 9 Enclaves (NIPERNET/SIPRNET) and hundreds of network and telecommunication devices without unplanned system downtime since 2005 and provides AMC and other users with optimized operating environments. TCI uses Erwin Computed-Aided Software Engineering (CASE) tools in concert with CMMI Level 3 processes to ensure GATES' operational excellence.

### Benefits

- ☉ TCI effectively provided 99.9% reliability throughout the Global Transportation Network.
- ☉ As a direct result of TCI support, AMC achieved 99.9% network availability for GATES.
- ☉ Due to TCI's recommendation to use PowerBuilder for GATES development, GATES' first build was fielded ahead of schedule, reducing required program labor by approximately 25%.

*TCI has enjoyed a high degree of success performing various Network and Telecommunication Services. Our Approach has consistently benefitted our customers – It can yield similar results for your enterprise*

## TCI INFRASTRUCTURE MANAGEMENT – OVERVIEW

### Capabilities & Accomplishments

TCI is a CMMI Level 3 company that has served our clients for over 30 years with offices throughout the United States. TCI brings low risk and on-time solutions by combining process maturity and discipline with innovative and fast paced cutting edge practices.
